Rieke Packaging is a global leader in dispensing solutions, offering the widest range of dispensers, foamers, fine mist sprayers and airless systems to meet individual product and branding requirements.

With global manufacturing facilities, a proactive new product development programme, the latest patented innovations, high quality decoration options, and our in-depth expertise in the dispensing of many different types of fluids, we have the knowledge and capability to devise a tailored solution for even the most challenging of projects.

In addition to our standard ranges, our innovation team can create bespoke designs to support specific marketing and brand strategies, while our comprehensive support services can help to source additional packaging and provide advice on customers’ manufacturing, filling and logistics operations.

It all adds up to the complete one-stop shop for the finest personal care packaging solutions – little wonder that Rieke is the partner of choice for many of the world’s leading brands.
